**Subject:** Fw: Database Information for Bruce Yurdin

Bruce - Sally mentioned that you were talking with an Illinois University about putting together a CAFO universe. We wanted to let you know what we are doing right now on our end. Below are the sources of possible AFO information that we are in the process of consolidating. We would reconcile the data into one database and map the locations. We hope to have a first cut sometime in July. If you have any questions about what we have, you should contact Cheryl Burdett directly as I will be out until the 29th. We of course will share the information once we have it organized.
